

Accreditation Statement

In support of improving patient care, the University of Wisconsin–Madison ICEP is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC) to provide continuing education for the healthcare team.

Credit Designation Statements

For more information about continuing education credit for this episode, visit the ICEP online learning portal at

<https://ce.icep.wisc.edu/dementiamatters2025/frontotemporal-dementia>

The accreditation for this course expires 8/12/2026. After this date, you will no longer be able to access the course or claim credit.

Claiming Credit

An ICEP account is required to claim credit and to complete the episode evaluation form. [Create an account](#)

To claim continuing education credits using the texting function:

- At the end of the podcast episode, you will receive information about texting in a code with your cell phone.

To claim continuing education credits through the ICEP online learning portal.

- Visit <https://ce.icep.wisc.edu/dementiamatters2025/frontotemporal-dementia>. Go to the **Register** tab, click the **Begin** button and under the **Course Progress** section, click on **Attendance Code -> Start** and enter the text code given at the end of the podcast episode.

To complete the episode evaluation:

- Go to the **Register** tab, click the **Begin** button and under the **Course Progress** section, click on **Episode Evaluation -> Start**

Learning Objectives

As a result of participation in this educational activity, members of the healthcare team will:

1. Define frontotemporal lobar degeneration (FTLD) and its causes
2. Describe the symptoms of FTLD and how they may be different from the symptoms of Alzheimer's disease
3. Discuss the diagnosis process and standard of care for FTLD
4. Describe the different referrals and organizations for those with FTLD
5. Describe current research and major advances in FTLD research, including the ALLFTD research study
