ABOUT THE EVENT
The Alzheimer's Disease & Related Disorders Research Day is an annual event designed to encourage collaboration and promote scientific thought among faculty, students, and researchers from a wide range of disciplines across the UW-Madison campus. This year's event will examine what population research tells us about Alzheimer's disease risk prevention.

A detailed agenda will be available in January. The event is free, but registration is required.

CALL FOR POSTERS
The Wisconsin ADRC invites poster submissions on topics related to Alzheimer's disease and related disorders.

Deadline for submission: Monday, February 4, 2019
Notification date: Monday, February 11, 2019

Members of the Alzheimer's Disease & Related Disorders Research Day Committee will review abstract submissions. The committee will invite three abstract presenters to give podium presentations during the event. Awards will be given to the top poster presenters in the following categories: Best Undergraduate Research Poster; Best Graduate Student or Research Specialist Poster; and Best Fellow, Post Doc, or Research Scientist Poster. For application questions, please email Eva Davenport at emgray@medicine.wisc.edu.

Register and submit an abstract at www.adrc.wisc.edu/researchday2019

FEATURED SPEAKERS

Rachel Whitmer, PhD, is professor of epidemiology and director of the Population Science of Brain Health Laboratory at the University of California, Davis.

Amy Kind, MD, PhD, is associate professor of medicine and director of the Health Services and Care Research Program at the University of Wisconsin-Madison.
